If you have received your copy of the September Male Call, you noticed the picture of the new additions to the Dixon Building in Dallas. Part of that addition will be to add more office space on the South end of the office complex. We have scheduled the project for **January 2009**. More information will follow.

FURNITURE BUILDERS

The furniture builders will have finished the job at Pineywoods by the end of October. This is our last job scheduled for this year. This has been a good job with a total of eleven couples involved in building 156 pieces of furniture for Pineywoods, FBC Groveton and FBC Pflugerville. The ladies were busy sewing on several different projects. There is a possibility that we may be going back to Pineywoods after the first of January to work on Another project there. This is still tentative at this time.

The project at Falls Creek, OK is set to begin on March 2, 2009. We are not sure exactly what the project will encompass but we expect to be there for 2 months. We have been told there is plenty of RV parking and room accommodations.
